A bimonthly journal devoted to the interests of economic entomology. Authors are entirely responsible for statements in the JOURNAL, whether of fact or opinion.

**Subscriptions.** Nonmembers in North America and U.S. Possessions–$30.00 per year; elsewhere–$32.00. Single copies $6.00. Deliveries overseas are not guaranteed and foreign mailings are made at the subscriber's risk. Subscribers will be charged a service fee of $1.00 for forwarding journals returned to the ESA because of failure of the subscriber to provide a timely change of address. Membership dues: Active $15.00; student $3.00. Members' subscription rates: $15.00 in North America and U.S. Possessions; $16.00 elsewhere.

**Missing numbers** cannot be supplied free of charge in North America and U.S. Possessions unless notice is received within 60 days after the appearance of issues concerned. The Executive Secretary will be glad to quote prices for back numbers.

**Reprints.** A reprint price schedule that applies to orders received before the JOURNAL goes to press is shown on the order blank sent with galley proof. No reprints are furnished gratis. For price schedule see BULL. ENTOMOL. SOC. AMER. 20 (4) : December 1974.

**Business communications** and matters pertaining to subscriptions and advertisements should be sent to the Executive Secretary. Changes of address must be received 5 days prior to the month of issue to be effective for that month.

**Manuscripts** and other copy should be sent to the Executive Secretary. Authors are urged to consult "Publication Policies and Instructions for Contributors" before submitting manuscripts (BULL. ENTOMOL. SOC. AMER. 19 (2) : 85, June 1973). Reproduction of abstracts is authorized. Page charges are $46.00 per page, partial pages proportionately.

**METRIC CONVERSION**

Contributors of papers on laboratory studies should use the metric system exclusively. Use of the metric system in reporting the results of field studies is a desirable ultimate objective. Since it is difficult to replace immediately such standard concepts as lb/acre by the units kg/hectare, yards by meters, or miles by kilometers, the following table of conversion factors is presented.

| | | | |
|---|---|---|---|
| 1 inch = 2.54 cm | 1 $ft^3$ = 28.3 $dm^3$ | 1 cm = 0.394 in. | 1 $dm^3$ = 0.0353 $ft^3$ |
| 1 yard = 0.914 m | 1 acre = 0.405 hectares | 1 m = 3.28 ft = 1.094 yards | 1 hectare = 2.47 acres |
| 1 mile = 1.61 km | 1 lb/acre = 1.12 kg/hectare | 1 km = 0.621 mile | 1 kg/hectare = 0.89 lb/acre |
| 1 lb = 453.6 g | 1 lb/in.$^2$ (psi) = 70.3 g/$cm^2$ | 1 kg = 2.2 lb | 1 g/$cm^2$ = 0.0142 psi |
| 1 gal (U.S.) = 3.785 liters | 1 lb/gal (U.S.) = 120 g/liter | 1 liter = 0.264 gal (U.S.) | 1 g/liter = 0.83 lb/100 gal (U.S.) = 1000 ppm |

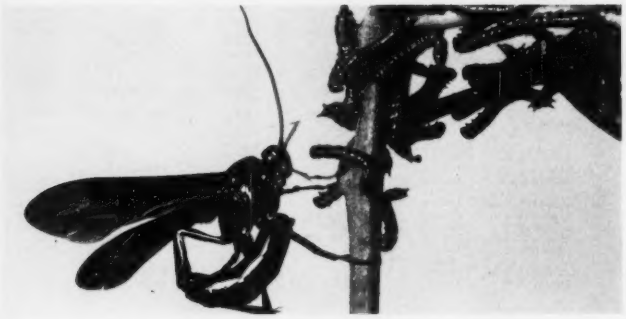
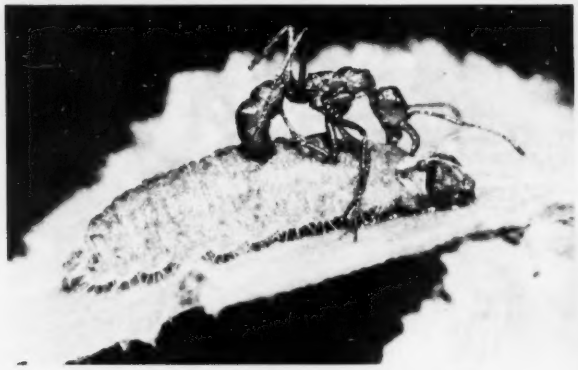
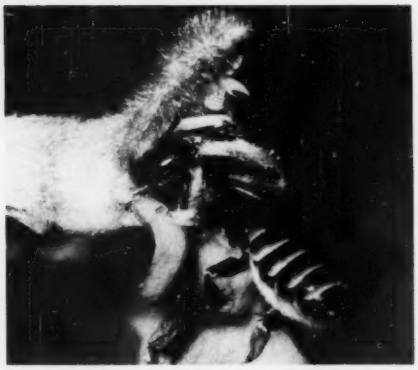
beneficial insects are invaluable to man as pollinators of our crops and flowers, and as destroyers of harmful insects







# we're for that!
